Last birthday, I decided to celebrate it by inviting some friends out to supper. I chose a restaurant because the food there is good and the waiters are friendly. It is hardly crowded, because few people know about it, so it isn't necessary to book a table there.

When we entered the restaurant, I was surprised to find it completely full. One of the waiters recognized me and explained that a party of tourists came in about half an hour ago and pointed to a corner table as the people there were about to leave. Fifteen minutes later the people at that table paid and left.

Unfortunately, all the waiters were busy with the party of tourists. They ordered enormous quantities of food. Nearly an hour later, the tourists were finishing their meal and left. The waiter came to our table and we asked for some dishes. A few minutes later he came back and informed us that there was no meat or fish left.

Tourists have come to Egypt for hundreds of years to see the wonders of the ancient world such as the pyramids, temples and other monuments. It is a wonderful experience for them. Tourists have also come to experience the wonderful natural world such as the desert and the Red Sea.

There are a lot of activities to do by the Red Sea. Some people love relaxing on the beach, while others like doing something more exciting like snorkelling.

Snorkelling has been popular for many years and people have come to Egypt to swim in the Red Sea for a long time. Dahab has been a popular destination since 1960. This is because the water in Dahab is among the best in the world for snorkelling. There are beautiful coral reefs and there are some amazing sea animals, such as the dugong and the lionfish.

We have to encourage and welcome tourists to visit Egypt in the future.

A student and his professor saw a pair of old shoes lying in the path. It belonged to a poor man who worked in a field nearby. The student wanted to play a trick on him, but the professor refused. They agreed on putting a coin into each shoe and hide themselves to watch how that would affect the poor man. The man soon came to the place where he had put his shoes. While slipping his foot into one of his shoes, he felt the coin .The man put it into his pocket. When he proceeded to put on the other shoe, he found the other coin. His feelings overcame him and he jumped over with joy thanking God. The man spoke of his sick wife and his hungry children. The student was deeply affected and his eyes filled with tears. "Now," said the professor "Isn't it much better than playing your trick?" The student said that his professor had taught him a lesson to remember.

Online shopping is a form of electronic commerce which allows customers to directly buy goods or services from a seller over the internet using a web browser or a mobile app. Customers find a product of interest by visiting the website of the sellers directly or by searching among many of them using a shopping search engine, which displays the same product's availability and pricing at different esellers. Customers can shop online using a range of different computers and devices, including desktop computers, laptops, tablet computers and smart phones.

Online stores usually enable shoppers to use "search" features to find specific models, brands or items. Online customers must have access to the internet and a valid method of payment in order to pay, such as a credit card, debit card or service such as PayPal.

Online shopping can be done anytime, but you need to be careful where you shop from! Buy from trusted sources and make sure you read the user reviews of both the seller and the product.

One hot day, a thirsty crow flew all over the fields looking for water. For a long time, she could not find any. She felt very weak, almost giving up hope. Then, she saw a water jug on the ground. She flew down to see if there was any water inside. Yes! She could see some inside the jug. The crow tried hard to push her head into the jug. Unluckily, she found that the neck of the jug was too narrow. Then she tried to push the jug down for the water to flow out, but it was too heavy for her.

......, decorate our city and attract more visitors to enjoy its beauty. People who are interested in this project are **6** to be awarded by the

The crow thought hard for a while. Looking around her, she saw some small stones. She suddenly had a good idea. She started picking up the stones one by one, dropping each into the jug. As more and more stones filled the jug, the water level kept rising. Soon it was high enough for her to drink. Her plan had worked!

A role model is someone who is considered to be a good example for other people to copy. My father is my role model. He is a businessman. He is very hardworking and he works day and night to give us healthy living. He protects me from all kinds of problems. I and my sister can talk about anything and everything with him.

Every night, we wait for him at the dinner table to chat with him. He also takes us for a walk after dinner and tells us interesting stories. He takes us for a picnic or a movie once a month. He understands his responsibility towards the society. At weekends, he volunteers at an old people's home.

My father enjoys playing chess with his friends. He believes in regular exercise and has also taught us the same. He wants me to <u>excel</u> in whatever I do. I want to make him feel proud of me one day.

Ahmed's community has a lot of facilities which make life easier and more comfortable for people living there. They have some great shops and places to go to like the library and the movie theatre. They have a strong community. They have lots of projects where people can volunteer to help other people, especially the elderly. Some people in the community are starting a project where young people are going to help the elderly learn more about technology.

They have good leisure activities including sports facilities and the children's playground. There are lots of places where families can enjoy being outside together. Ahmed thinks that they could do more to improve their community. He hopes that disabled people have equal opportunities like others. For example, pavements are not easy for them to use. My name is Adel. I am a prep-school student. I live in the town of Tala, Menofia. Last week, I tried two new restaurants - Flower's and Cloud. They are both Italian restaurants downtown. Flower's is a small place with about fifteen tables. The waiters and waitresses are very friendly, and the service is excellent. I ordered chicken with rice and a salad. Then I had chocolate cake and coffee. The chicken was delicious, but the cake was too hard. The meal cost about seventy-five pounds only.

Cloud's is a much bigger restaurant, and it was very busy that night. I waited twenty minutes for a table, Cloud's is noisier than Flower's, and the waiter was very slow with my meal. I ordered soup and meat with fried potatoes and vegetables. The soup wasn't very hot. The meat was OK, but the vegetables weren't very good. Then, I had ice cream. The meal was really expensive - about three hundred pounds.

When I was young, I always loved both drawing and painting, but I could neither read nor write well. As a result, I didn't understand the lessons at school and got bad marks.

My parents thought that I wasn't very clever. For this reason, they took me to some tests. They discovered that I suffered from dyslexia which means it was difficult for my brain to read and spell. To help me, my parents asked a teacher to give me special lessons which made me have good results. Later, at school I was better and did well in exams.

Also, I got a prize for my art. Then, I decided that I would like to be an artist one day. Now, I volunteer at a charity for other children with dyslexia to offer help and teach them about art.

In the past, people travelled on foot or on horseback and suffered many troubles. The journey might take days to reach their destination. Nowadays, they travel by air, by land or by sea. People do not travel for the same reasons. Some people go on business. This means that they are busy about something, and they have work to do. Some people travel for their health; perhaps the doctor has told them that they must go to a warmer country or perhaps they have to go to a cooler one for the summer.

In some places there are health springs. The water of these springs is special water which is very good for health. People from faraway places come to drink the water of these springs, or to bathe. Perhaps people are recovering from illness and the doctor has ordered them to have a change of air. Some other people travel for other reasons such as pleasure, exploration, politics and study.

I am Mary. I am from England. Last summer, I visited Egypt for the first time. My friends advised me to go to Ismailia. The city is situated on the west bank of the Suez Canal. It is known as the City of Beauty and Enchantment. The guidebook said that I should visit Lake Timsah that lies between the Red Sea and the Mediterranean Sea. Egypt is full of gorgeous lakes, but Lake Timsah is one of the most famed spots for its wonderful blue water. I also visited The Ismailia Museum. It is a small museum but it contains numerous objects that are really worth seeing. Most of the things that you want to know about Egypt, especially history, can be found there. Travellers consider Alsalam Bridge and Ismailia Stadium as the best of four tourist attractions in Ismailia. I enjoyed visiting all these places during my stay there I hope I will visit Egypt again and again.

A goal is something you want to achieve. First, decide what your goal is. For example, do you want to pass a test? Do you want to be a doctor? When you have decided on your goal, write it down on paper and look at it every day. Then decide what you must do to succeed.

Some people never reach their goal because they think it is impossible. But you must always believe that your goals are possible. Don't think, "This test is difficult, I'll probably fail". Instead, think, "This test is difficult, but I've worked hard and I'll pass it.

Most people are successful at things they enjoy. So always try to love and enjoy your work. Keep looking at the goal you wrote on paper and think how happy you will be when you succeed. Think about that happiness while you are working and be sure you will enjoy your work.

Last April, I went with my family to Hurghada. We went there to spend some enjoyable time. My father drove us there. It was a long drive, but we enjoyed watching the beautiful sceneries. We stayed for three weeks. We did a lot of interesting activities there.

We went swimming and snorkeling in the sea. Under water we saw many beautiful kinds of fish. The water of the Red Sea is warm and pure. I also went windsurfing with my brother. At first, I was frightened, but quickly I felt safe as my brother was careful and he encouraged me to feel safe.

Every evening, we went shopping and visited some wonderful bazaars. A bazaar is a place where visitors such as tourists can buy wonderful souvenirs for their families and friends. There, I bought some souvenirs for my friends. I think it was a good experience for all of us so we're looking forward to visiting Hurghada next year.

Noha and her mother were flying to Brazil. Suddenly, there was a storm and it became foggy. The plane crashed. Noha woke up to find herself in the middle of a thick jungle. She wasn't badly hurt, but there were parts of the plane around her. She discovered that she was alone in the jungle. She called out her mother, but she couldn't see or hear anyone. She didn't see animals or birds, but she heard them. She shouted and shouted for help. She was scared. She thought that she would die.

Noha remembered some advice her father had given her many years before. He had said "If you are lost in a jungle, you should find a river and follow it." Noha had a terrible night. Encouragement is one of the most important keys of success in life. Years ago, an old poor man lived in a small village in Beni Suef. He had a small family, his wife and three sons. He worked day and night to earn money for his family to live on. He worked hard and hard to send all his sons to good schools. He faced a lot of difficulties and problems. His honest, encouraging wife did her best to help him. They could bring up their sons well. She helped her husband to be successful. Their sons grew up and went to different universities. With the right support and encouragement, the three boys became great men in society. The first was a famous doctor who worked in Qasr El-Eini Hospital. The second was a well-known businessman who had his own projects. The third got a high position in the city factory. They were so successful persons because of their parents' help and support. All the family lived a comfortable life then.

Emad was born in London in 1990, but his parents are from Egypt. In his midtwenties, he left to France on a boat to find work. Sometimes life wasn't easy. He met difficult problems, but nothing stopped him. He had to work hard because he aimed to be a businessman. Years later, he made a lot of money. He then planned to start more companies in other countries. He went to New York on business where he met Sara; a painter. At first he thought that she was from America, but he was surprised to know that she was from Aswan. They got married and came back to Egypt. They gave money to help the poor. He wrote a book about his life which was popular with a lot of readers. It gave them a lesson about how to be positive and what you can do to make a difference to your community through working hard.

Last month, Hatem came home very angry. He told his parents that the streets around his school were crowded with cars and people. They were dirty, too. People throw rubbish in the streets instead of putting it in bins. Hatem was a very good pupil. He decided to form a team of pupils to make these streets clean and tidy. They put bins in these streets. They cleaned the streets and grew some flowers there. They also put some notices advising people to keep the streets clean.

Teachers and parents helped the pupils by giving them advice and the money needed. Other pupils in other schools liked the idea and decided to keep the streets around their schools clean. Do you feel you have no time for yourself? Do you forget to call family on birthdays or holidays? Have you stopped going out with friends because you're too busy? Do you have trouble relaxing and having fun?

If you recognize yourself, you should remember to slow down and take more time for everything. Living a balanced life is about integrating the many vital areas of your life, including your health, friends, family, work, and romance. Here are some tips for restoring a healthy perspective. First, remember to make time for the important people in your life. Stop over-scheduling and spend quality time with friends and family. Second, learn to eat, talk, walk, and drive more slowly. And don't forget to turn your smart phone off sometimes. People who really want to talk to you will call back. Third, learn to live in the present and stop worrying about the future. And finally, take it easy and begin enjoying the simple things in life. Stop to smell the roses.

You probably have a fridge in your house to keep your food cool, but have you ever thought about what people did in the past? People have used ice to keep food cool for thousands of years. In the north of Europe in winter, people were able to use snow or ice which they kept underground for many months. In 1842, an American doctor called John Gorrie invented a machine to make ice. He used it to keep people cool when they got an illness called "yellow fever". By 1900, places that sold meat in the USA started to have fridges and today, nearly all homes in the USA have a fridge in their kitchen.

We continue to use the same technology for fridges that we have used for a century. The problem is that a room with a fridge in it is a lot noisier and hotter than other rooms! Now people are designing modern fridges that are neither hot nor noisy. These are going to use less energy, too, so they will be more efficient.

Heba is a very good girl. She is always energetic. She is not tall. Ten years ago, Heba, who was seven years old then, went into her father's library and asked him if she could borrow some books. This made him very happy. Heba's father thought that his daughter was interested in reading. He asked her to take any book. She did what her father told her. She chose many big books and took them to the garden outside the house and put them under an orange tree. Heba's father and mother followed her to see what she would do with the books. They tried not to let her see them. They were surprised when they saw their daughter standing on the big books and picking some oranges. Her father helped her to pick some oranges and told her not to stand on the books again.

My friend Tarek likes farming so much. He lives in a very nice house with a small garden. In the garden, his father plants different kinds of fruits and vegetables. One day, he invited me and seven of our friends to his birthday party.

I arrived at my friend's house at eight in the evening. There, I found all my friends sitting with Tarek in the garden. One of our friends brought a nice book about farming.

Tarek's mother prepared lots of nice cakes for us. We ate, drank and sang songs. Tarek got lovely presents, and he was so happy. After the party, we played some computer games in Tarek's bedroom. It was a very wonderful evening and we went back home at ten. It was one of the best days in my life.

Yesterday I slept early. I woke up in horror when I heard people screaming. I went out and saw: my neighbours' house was on fire! My dad called the firemen in less than 10 minutes they arrived and fought against the fire until they made it. They are really brave! One of them entered the house and saved the baby that was trapped in the fire. Our neighbour forgot to turn off the oven which started the fire. This accident taught me that we should check the electric sets and ovens before we go to sleep. It made me decide that when I grow up, I want to be a fireman. I'll be strong and brave enough to be suitable for the job. I will fight against the fire, to save people's lives. If you have a relative works as a firefighter, you should be proud of them. John and Mary are from Sweden. Last year, they went on holiday to Spain. One night, they went out for their dinner. They looked for a good restaurant. Outside one restaurant, they saw a man and a woman. The man looked cool and he smiled. John and Mary greeted him and he answered them in Swedish, their language! They asked the man if it was a good restaurant. He recommended it and said it was excellent! He said it had the best food in Spain. John and Mary trusted the man because he was from their country and they went in. They sat at a nice table beside the window. They ordered paella. The waiter brought their dish. It was terrible! There were only two small prawns in it, the chicken was undercooked and the rice was sticky and horrible. Also, the water was warm. At the end of the meal, the waiter gave them the bill. It was very big! When they left the restaurant, the Swedish man was still there. John and Mary told him he was wrong about the restaurant; they said it was terrible, really awful! They asked him: 'Why did you recommend it? "Because I am the manager, he answered.

Mona loved watching the sky at night. It shined with so many stars. Sometimes, she would climb onto her dad's shoulders. She'd feel like a princess, sitting closer to those stars. One afternoon, her dad said, "We're going to the beach! Won't that be fun?" Mona wasn't sure. "Will my stars be there, too?" "Maybe," Dad said. So they went to the beach. But it was foggy that night – no stars in sight. "Let's see what happens tomorrow," Dad said. "Okay..." Mona frowned. The next morning, they went back to the beach and Mona gathered seashells. Mona found something strange. It looked like a big, orange, bumpy star. Had it fallen from the sky? And why wasn't it glowing? "It's not a star." Dad smiled. "It's a starfish. It lives in the ocean." Mona put the starfish in the ocean. They watched the waves wash it back home. Then Mona looked for more starfish. She liked stars and starfish.

Concorde, the world's fastest passenger plane, was developed by France and Britain together. They both dreamed of having a supersonic plane, and the project started in 1962. They have spent £1.5 billion on developing the Concorde, and it was tested for over 5.000 hours. The first passenger plane was introduced by British Airways and Air France in 1976. The Concorde holds many world records, including the fastest crossing of the Atlantic Ocean from New York to London, which was achieved in 2 hours 45 seconds! Flying at twice the speed of sound means that flying time was reduced by half, which is why the Concorde flight between London and New York is used a lot by business people and film stars you can leave Britain at 10:30 am and arrive in New York an hour earlier! Twenty planes have been built up to the present day. But there are no plans to build any more. Each plane is produced at a cost of £55 million, which makes them very expensive! They stopped using Concorde aircraft in 2003.

Back in 1900 a man was trying to sell sausages in the streets of New York. He boiled them and then kept them hot in a tank of hot water. Nobody was very interested until he started to shout, 'Get your hot <code>dachshund</code> sausages here!' A dachshund is a long, dog which looks something like a sausage. As a result he sold many more of his sausages. A newspaper reporter took a photograph of the sausage seller holding one of his sausages for a story in his paper. But he wasn't sure to spell 'dachshund', so he called it a 'hot dog' instead. And that's how the name started. The same salesman lent a pair of white <code>gloves</code> to his customers to hold hot sausages with. But somebody forgot to give him back the gloves. So went to a baker and asked him to make him some long pieces of bread to hold the hot dog in. This was such a <code>perfect</code> combination remained unchanged ever since.

Millions people all over the world like travelling. They travel to see other countries and continents, modern cities and the ruins of ancient towns. They travel to these places to learn about other cultures. It's always interesting to discover new things and different ways of life, to meet different people or to try different food. People who live in the countryside often like to go to a big city to visit museums and art galleries, things they don't have in their hometown. They like to buy from famous shops and to dine at big restaurants. People from the city often like a quiet holiday by the sea or in the mountains where they can sunbath or walk. Many tourists love taking photos of everything that interest them. People travel by train, by plane, by ship or boat and by car. All ways of travel have advantages and disadvantages. And people choose one according to their plans. The fastest way of travelling - is travelling by plane, but the most comfortable is travelling by ship.

Time is very important, so if we have spare time, we should spend it in a useful way. A wise person is the one who makes the best use of <u>it</u>. Some people like to practise sports to keep fit and strong, others prefer reading and writing to live in their own world.

Exams

Reading is the most important and famous hobby that people can enjoy a lot. It helps them to spend a nice and useful time. A book is a good friend that you can have with you wherever you go. It provides you with different kinds of knowledge and lots of information. That is why we have to encourage our pupils to go to school libraries. There, they can read and borrow books to know more about different subjects, countries and different people. Nowadays free reading competitions are held, and winners are awarded to spread the love of reading among students as it gives them the chance to think better.

Uncle Saleh is fond of going to the cinema. We don't have a cinema in our town, so he travels to the next town to see a film once a month. He goes to the cinema alone though he has many friends.

GIANTS HALL

Recently, we knew why from my mother. Uncle Saleh wanted to be an actor at early age. He waited outside the studios to appear in scenes, trying to achieve his goal as a film star. While he was looking for a small part in a film, he met a director in our town who offered him a role as an accountant in a bank. The part was small with a few lines, but important for him. He thought it was the beginning as a film star. In the end, the scene was cancelled and nobody told him. When the film appeared in Cairo, he took all his friends to see it. It was a terrible blow as he was not in it! Since then, he went to the cinema alone.

Mr Omar's wife and children asked him to buy them a new TV set. So one morning, he walked to the bank. He drew five thousand pounds from his bank account. He put the money carefully in an envelope, and then he went to the bus station to take a bus to the town centre.

Exams

Then he changed his mind and decided to take a taxi. He thought that the money might be stolen if he took a bus. The taxi he took dropped him near a TV shop. He thanked the driver and tipped him. Mr Omar got into the shop and chose a smart TV. When he went to the cash desk and stood in front of the cashier to pay, he got a big surprise. The envelope had disappeared. Soon, he hurried out of the shop. To his surprise, he found the taxi driver waiting for him.

First, reporters find out about interesting news stories. They interview people and visit places to get information. Photos are often taken and they are added to some of the articles. After an article is

written, the information is checked by people in the newspaper office. They want the information to be <u>accurate</u>. The spelling is corrected, too. A headline is added so that readers know what the article is about. Finally, the order of the articles and photos is decided. Each newspaper page is designed on a computer. Then the complete newspaper is printed. The newspaper must be ready early in the morning, so people must work at night. The printed newspapers are collected and are driven to shops, where they are sold. Millions of newspapers are bought by people all over the world. Newspapers are not only bought in shops. You can usually read them online, too.

A sick person lives a bad life full of pain, weakness and suffering. He feels that he is a real trouble to his family. He loses the nice taste of food. You can enjoy good health if you practise suitable exercise, learn some interesting hobbies, get enough sleep and eat healthy food. So, one shouldn't eat more than eighty grams of fat a day. We mustn't eat much ice cream because ice cream has got a lot of fat and much sugar. Fresh vegetables and fruit are very good for your health.

While Adel was walking along the road last week, he found a handbag. He picked it up and opened it to see if he could know the owner's name. There was nothing inside it except a book and a photograph. Yesterday, Adel was invited to his cousin's birthday party. His cousin also invited some of his friends. One of his friends sat next to Adel. His face was easy to recognise but Adel didn't meet him before. Reading Comprehension (5 marks)

Read the following text, then answer the questions. (5 marks) .

Should we work all the time without having a rest? The answer is that we can't continue working without stopping. From time to time, we need some rest to do some interesting activities. If we don't do that, we can make mistakes and our work might get worse. If we work all the time, we may lose the ability to think clearly and have no energy to continue working, so sleep is very important. It renews our energy. sports and games are also important especially for people who stay in closed offices. They are not able to do exercise. Some activities such as swimming and walking may give them a lot of energy. So, we shouldn't waste our weekends. We should try to forget all about our work. We can then enjoy ourselves.

Last year, I read a very interesting story which is called "Journey to the centre of the Earth" The story is about an adventure to the centre of the earth. The main character is a boy called "Axel" who lived with his uncle, Professor Lidenbrock in Hamburg, in Germany. Axel came to live with his uncle when his parents died. Axel was proud of his uncle who was a famous scientist. He Knew about the earth more than any other scientist. One day, Lidenbrock found a very old book in which he found out a description of a journey to the centre of the earth written by an ancient Icelandic scientist. Lidenbrock decided to make this dangerous journey and took Axel with him. During the journey, they saw wonderful things, animals and even strange people underground. They really had hard time but they enjoyed the journey. They were brave and helped each other, so they succeeded in making the journey. Finally, they came back to the surface of the earth safely.

Ali is a smart boy. He likes modern technology and he is great with computers and machines. He decided to design a robot, so he went to his room and started to design it. First, he worked on the wires and lights. Then he started making the body of the robot. He cut some pieces of metal and plastic to make the robot. He wanted the robot to be able to move around and do things at home. He had to use his computer to tell the robot what to do. The final step was to decorate the robot. He added paint and stickers and gave the robot a friendly face. When he switched the robot on, the robot said, "Hello! Can I help you?". He became very happy. Now, he wishes to work for a big company in the future.

After finishing preparatory school at 15, some students choose to stay in general education but 60 percent of them go to technical schools. That's why the Egyptian government is giving due care to the technical education and more technical schools are being built nowadays. Students who join such schools learn skills that they can really use in the world of work. Because of the guick changes in technology, the skills that people need today are very different to what was needed ten or twenty years ago.

There are also different kinds of technical schools and each school teaches a different kind of technical skill. Students who do very well at technical schools can then continue to study at university. They can get very good jobs, such as becoming engineers. However, all jobs that need technical skills are important. Life would be impossible without electricians, nurses, electricians or farmers.

Mr Omar's wife and children asked him to buy them a new TV set. So one morning, he walked to the bank. He drew five thousand pounds from his bank account. He put the money carefully in an envelope, and then he made for the bus station to take a bus to the town centre. Then, he changed his mind and decided to take a taxi. He thought that the money might be stolen if he took a bus. The taxi he

took dropped him near a TV shop . He thanked the driver and tipped him . Mr Omar got into the shop and chose a smart TV . When he went to the cash desk and stood in front of the cashier to pay , he got a big surprise . The envelope had disappeared . Soon , he hurried out of the shop . To his surprise , he found the taxi driver waiting for him .

Long after the discovery of electricity , man found out that he could use the great power of water to produce electricity . At first , man used waterfalls from high mountains . Later , he began to build dams across rivers to form a lake behind . The water is then allowed to fall under control through huge pipes to run turbines , machines which help to produce electricity . This runs into wires and is treated before it is used in homes and factories . Dams have also been built along rivers in the world to make full use of the water , so it nuns to the driest and least fertile lands to prepare them for farming . Now man uses the sun to produce electricity . Scientists never stop inventing new ways to produce energy which don't pollute the environment . Life was quite different in the past. Everything was not as it is now. Let's talk about just one thing. The railway has been one of the most important means of transport. This system provides cheap transport for both people and goods. Before trains were invented, people used to ride horses and camels for journeys across a country. During those days, the roads were poor and journeys which now take only a few hours, could take several days or even weeks. Moreover, trains could carry heavier things compared to horses and camels. There are many kinds of trains. The stopping train stops at every station, so it is slow. If you want the fastest journey, take the express train. You can sleep in the sleeper train as there are comfortable beds. All of the express trains have got air conditioning. You can also buy food and drinks on the train. Some people make rail cards to save their money. Trains are the cheapest and most comfortable means of transport.

We are much luckier than our grandfathers because we enjoy lots of things which have made our life easier, more enjoyable and comfortable. Until a short time ago, people had much trouble travelling from a village to the town, or making a long distance phone call. Now we enjoy modern means of transport and communication. If you asked me which modern invention has affected the world most, I'd certainly answer that the internet which I like most. You can do many jobs using the internet in a faster, easier or cheaper way than ever . Nowadays few people post letters which have been replaced by emails. > 3) Read the following passage, then answer the questions:

I am greatly interested in reading because it is very useful and necessary in our daily life. So, it is my favourite hobby. We should read a lot of different books during our free time to increase our knowledge. We can get much information that helps us make our Life better and easier. We should encourage our pupils to go to the school library to read and borrow books.

Although we are living in the <u>age</u> of modern technology, most people prefer reading printed books which they can carry with them anywhere. We have computers, laptops and the internet at homes and in our schools, but our best friend is still the printed book. Books should be cheaper and school libraries must be open during the summer holidays.

they kept underground for many months. In 1842, an american doctor called John Gorrie invented a machine to make ice. He used it to keep people cool when they got an illness called "yellow fever". By 1900, places that sold meat in the USA started to have fridges and today, nearly all homes in the USA have a fridge in their kitchen. We continue to use the same technology for fridges that we have used for a century. The problem is that a room with a fridge in it is a lot noiser and hotter then other rooms! Now people are designing modern fridges that are neither hot nor noisy. These are going to use less energy, too, so they will be more efficient.

3.Read the passage then answer the questions:

Mobile phones are important these days. We can use mobile phones to take photos of interesting things and places. We can also use them to make videos. When we travel we can make calls and tell other people where we are and when we will come back. Parents feel safe when their children have mobile phones because they can call them at any time and know where they are. Many people also play games on mobile phones.

3. Read the passage then answer the questions:

Our city park is in a really bad condition and for the last few months <u>it's</u> been getting worse and worse. No one can use the Community Centre in the park because it needs a new roof. The pond is full of litter, there are no fish and not many birds. All seats in the park are broken and there are no flowers or nice plants. People are frightened of going to the park because they think that it's dangerous. We want the park to be a place for people of all ages-for families to sit and enjoy the plants and flowers, for children to play in a safe place, and for teenagers to use the new Community Centre for different activities.
